

SHAHID SHAIKH

QA Engineer | Manual & API Testing | FinTech & AI Products

Pune, Maharashtra, India | +91 9370034794 | shahidsrs93@gmail.com | [linkedin.com/in/shahidshaikh-developer](https://www.linkedin.com/in/shahidshaikh-developer)

SUMMARY

QA Engineer / Software Tester with about a **year of hands-on** internship **experience** across **FinTech** and **AI-based products**. Works across **manual**, **API (Postman)** and **data-validation** testing, including validation of **OCR-** and **LLM-** extracted bank statement data across 50–60 formats from four Southeast Asian markets. Writes **Python QA** utilities and is **building Playwright + TypeScript automation** skills.

TECHNICAL SKILLS

Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UI Testing, End-to-End Testing, Negative Testing, Boundary Testing, Test Case Design, Defect Tracking, Data Validation

API & Data: REST API Testing, Postman, JSON, SQL (working knowledge), Excel

Automation & Programming: Python (QA scripting); Playwright, TypeScript, JavaScript and CI/CD (currently learning)

Tools & Practices: Jira, Git, GitHub, Chrome DevTools, Agile/Scrum, SDLC, STLC

Domain: FinTech, OCR, Intelligent Document Processing (IDP), KYC/eKYC, Bank Statement Validation, AI/LLM Output Validation

EXPERIENCE

QA Intern — PowerCred Technologies

Apr 2026 – Present

AI-first B2B FinTech SaaS (OCR, IDP, KYC/eKYC) | Remote

- Validated OCR- and LLM-extracted bank statement data against source PDFs across 50–60 document formats from Singapore, Malaysia, Indonesia and the Philippines.
- Analyzed transaction-level fields (dates, descriptions, amounts, debit/credit classification, running balances, currencies such as SGD, MYR, IDR and PHP, account information) and logged extraction and data-mapping discrepancies.
- Covered IDP dashboard and KYC/eKYC workflows end to end: authentication, uploads, search, filters, pagination, role permissions and session handling.
- Designed 50+ test case sheets from requirements/PRDs spanning positive, negative, boundary, edge-case and regression scenarios.
- Documented and tracked 100+ defects in Jira with reproduction steps, evidence and expected vs. actual results, then retested fixes through closure.
- Performed 30+ regression and change-validation cycles to confirm fixes did not break existing functionality.
- Executed REST API tests in Postman covering request/response validation, auth tokens, status codes, negative cases, API chaining and UI-to-API data comparison.
- Developed a Python utility to batch-process PDF test data across development and production environments and generate session references for OCR validation.
- Collaborated with PMs, developers and QA leads in Agile cycles, including requirement clarification and daily QA status updates.

Software Tester Intern — UptoSkills

Feb 2025 – Jun 2025; Feb 2026 – Apr 2026 (part-time)

Final-year MCA internship (Feb–Jun 2025); part-time (Feb–Apr 2026) | AI interview application | Remote

- Tested resume PDF upload, skill parsing, the automated interview flow and camera-based live-person detection.
- Wrote and ran 120+ manual test cases (functional, UI, validation, negative, regression) and logged 20+ functional defects with reproduction steps and evidence.
- Performed smoke/regression testing and validated REST APIs in Postman.

PROJECTS

E-Commerce Web Application Testing — Self Project

2025 – 2026

- Authored 60+ test cases for login, product search, cart, checkout and order flows, covering functional, regression, smoke, UI and cross-browser scenarios.
- Checked REST API request/response data in Postman. Tools: Postman, Chrome DevTools, Excel.

EDUCATION

Master of Computer Applications (MCA) — Vishwakarma University, Pune

2023 – 2025

CGPA: 7.89

Bachelor of Computer Applications (BCA) — North Maharashtra University, Jalgaon

2020 – 2023

CGPA: 9.10

CERTIFICATIONS

- Software Testing / QA 
- Agile Testing (LinkedIn Learning, 2024) 
- Python (Udemy, 2024); The Git & GitHub Bootcamp
